

Pre-teach: sort by colour

10-12 MINUTE ADULT-LED PREPARATION

Year 1 Maths | Autumn Week 1 Day 1 | Page 1

Purpose

Prepare the lower/CUSP group to notice colour, keep one sorting rule and explain where an object belongs. Use real objects throughout.

You need

2 hoops or trays | 2 red objects | 2 blue objects | colour cards | this sheet

Say together: sort | group | same | different | rule | colour

Teach in five small steps

- 1 Show one red and one blue object. Name and point to each colour.
- 2 Place them in separate hoops. Say: red here; blue here.
- 3 Add one matching object to each hoop. Pupils copy and say the rule.
- 4 Make a mistake by putting blue in red. Pupils point, move and explain.
- 5 Repeat once with fewer adult words. Praise checking the rule, not speed.

Adaptive prompts

- Point first, then speak.
- Give a choice: red or blue?
- Use: It belongs here because it is ____.
- Reduce to one object at a time.

Pre-teach quick check

PUPIL PRACTICE WITH AN ADULT

Year 1 Maths | Autumn Week 1 Day 1 | Page 2

Name: _____

Date: _____

Use real objects. Point, move and explain.

1

Put the red button in the red hoop. Where does it go?

2

Are two blue objects the same colour? Point to both and say your answer.

3

Say the rule: We are sorting by _____.

4

The blue object is in the red group. Move it and explain the mistake.

5

*Make your own two colour groups. Does every object follow your rule?***Adult record: independent [] prompted [] not yet []**

Initials / next support: _____
