

Count and represent 6 to 10

YEAR 1 MATHS | AUTUMN WEEK 2, DAY 1 | HIGHER CHALLENGE WORKSHEET

Name: _____

Date: _____

1. Show 8 in three different ways. Explain what stays the same.

2. Create two differently arranged sets of 9. Prove they are equal.

3. A ten frame has two empty spaces. How many counters are there? Explain.

4. Find and correct the error: seven dots labelled 8.

5. Write a clue for a number from 6 to 10 without naming it.

Check: I used objects, pictures or words to show my thinking.
