

Read and write numbers to ten million

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Read, write, order and compare numbers to 1,000,000 and use negative numbers in familiar contexts.

2. Write 8,030,006 in words.

3. Explain the first step you would take for: Read 6,407,215 aloud and write it in words.

4. Miro says: Miro reads 6,407,215 as six million, forty-seven thousand, two hundred and fifteen. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Read, write, order and compare numbers to 1,000,000 and use negative numbers in familiar contexts.

Answer Pupil identifies a relevant fact, representation or method.

2. Write 8,030,006 in words.

Answer Eight million, thirty thousand and six.

3. Explain the first step you would take for: Read 6,407,215 aloud and write it in words.

Answer Read the number in three-digit periods from left to right.

4. Miro says: Miro reads 6,407,215 as six million, forty-seven thousand, two hundred and fifteen. What should Miro check?

Answer The zero holds the ten-thousands place, so the middle period is four hundred and seven thousand.
