

Retrieve multiplication and division

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Autumn learning about place value, rounding, calculation, number properties and problem solving.

2. Calculate $9,072 \div 28$.

3. Explain the first step you would take for: Calculate $4,308 \times 36$ and check using estimation.

4. Miro says: Miro treats a remainder as the final answer without reading the context. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Autumn learning about place value, rounding, calculation, number properties and problem solving.

Answer Pupil identifies a relevant fact, representation or method.

2. Calculate $9,072 \div 28$.

Answer 324.

3. Explain the first step you would take for: Calculate $4,308 \times 36$ and check using estimation.

Answer Retrieve the relevant fact or method before answering.

4. Miro says: Miro treats a remainder as the final answer without reading the context. What should Miro check?

Answer Interpret the remainder as the context requires after the written division is complete.
