

Solve decimal problems

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Read, write, compare and calculate with decimals to three decimal places.

2. Calculate $34.75 + 8.906$.

3. Explain the first step you would take for: A runner completes 3 laps of 2.375 km and then 1.85 km. How far altogether?

4. Miro says: Miro lines up the final digits instead of the decimal points. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Read, write, compare and calculate with decimals to three decimal places.
Answer Pupil identifies a relevant fact, representation or method.
2. Calculate $34.75 + 8.906$.
Answer 43.656.
3. Explain the first step you would take for: A runner completes 3 laps of 2.375 km and then 1.85 km. How far altogether?
Answer Align digits by place value and include placeholder zeros.
4. Miro says: Miro lines up the final digits instead of the decimal points. What should Miro check?
Answer Align ones with ones and decimal points vertically so each place-value column stays correct.
