

Find the whole from a percentage

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Find percentages of amounts and use percentages in multi-step problems.

2. Find 25% of 360.

3. Explain the first step you would take for: 84 is 35% of a number. What is the number?

4. Miro says: Miro subtracts the percentage number rather than the percentage amount. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Find percentages of amounts and use percentages in multi-step problems.
Answer Pupil identifies a relevant fact, representation or method.
2. Find 25% of 360.
Answer 90.
3. Explain the first step you would take for: 84 is 35% of a number. What is the number?
Answer Find a useful percentage such as 10%, 5% or 1%.
4. Miro says: Miro subtracts the percentage number rather than the percentage amount. What should Miro check?
Answer Calculate the percentage of the original amount first, then apply that change in the context.
