

Plot points in four quadrants

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Describe positions in four quadrants and transform shapes on coordinate grids.

2. Point P moves from (2, -5) to (-3, 1). Describe the translation.

3. Explain the first step you would take for: Plot A(-4, 3). Which quadrant contains A?

4. Miro says: Miro changes x and y in the same way without checking the direction or mirror line. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Describe positions in four quadrants and transform shapes on coordinate grids.
Answer Pupil identifies a relevant fact, representation or method.
2. Point P moves from (2, -5) to (-3, 1). Describe the translation.
Answer 5 left and 6 up.
3. Explain the first step you would take for: Plot A(-4, 3). Which quadrant contains A?
Answer Read or record x before y and note the quadrant.
4. Miro says: Miro changes x and y in the same way without checking the direction or mirror line. What should Miro check?
Answer Track horizontal and vertical changes separately and apply the exact transformation to every point.
