

# Reflect shapes

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: \_\_\_\_\_ Date: \_\_\_\_\_

1. Which prior skill will help with today's lesson? Describe positions in four quadrants and transform shapes on coordinate grids.

2. A point becomes (7, -4) after moving 9 right and 3 down. Find its start.

3. Explain the first step you would take for: Reflect (-6, 2) in the y-axis.

4. Miro says: Miro changes x and y in the same way without checking the direction or mirror line. What should Miro check?

# Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Describe positions in four quadrants and transform shapes on coordinate grids.  
**Answer** Pupil identifies a relevant fact, representation or method.
2. A point becomes (7, -4) after moving 9 right and 3 down. Find its start.  
**Answer** (-2, -1).
3. Explain the first step you would take for: Reflect (-6, 2) in the y-axis.  
**Answer** Read or record x before y and note the quadrant.
4. Miro says: Miro changes x and y in the same way without checking the direction or mirror line. What should Miro check?  
**Answer** Track horizontal and vertical changes separately and apply the exact transformation to every point.
