

Interpret pie charts

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Interpret and construct statistical representations and calculate the mean.

2. In a survey of 60 pupils, 15 choose art. Find the pie-chart angle.

3. Explain the first step you would take for: A quarter of a 240-pupil pie chart represents walkers. How many pupils walk?

4. Miro says: Miro divides by the largest value instead of the number of values when finding the mean. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Interpret and construct statistical representations and calculate the mean.
Answer Pupil identifies a relevant fact, representation or method.
2. In a survey of 60 pupils, 15 choose art. Find the pie-chart angle.
Answer 90 degrees.
3. Explain the first step you would take for: A quarter of a 240-pupil pie chart represents walkers. How many pupils walk?
Answer Read the title, labels, scale and total before calculating.
4. Miro says: Miro divides by the largest value instead of the number of values when finding the mean. What should Miro check?
Answer Add every value, count how many values there are, then divide the total by that count.
