

Determine the value of each digit

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Read, write, order and compare numbers to 1,000,000 and use negative numbers in familiar contexts.

2. Partition 5,082,407.

3. Explain the first step you would take for: What is the value of 3 in 8,364,219?

4. Miro says: Miro says the 8 in 5,082,407 is worth 8,000. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Read, write, order and compare numbers to 1,000,000 and use negative numbers in familiar contexts.

Answer Pupil identifies a relevant fact, representation or method.

2. Partition 5,082,407.

Answer $5,000,000 + 80,000 + 2,000 + 400 + 7$.

3. Explain the first step you would take for: What is the value of 3 in 8,364,219?

Answer Read the number in three-digit periods from left to right.

4. Miro says: Miro says the 8 in 5,082,407 is worth 8,000. What should Miro check?

Answer The 8 sits in the ten-thousands column, so it is worth 80,000.
