

Choose the required accuracy

Adult-led preparation before the main lesson. Use precise vocabulary and one step at a time.

Name: _____ Date: _____

1. Which prior skill will help with today's lesson? Round whole numbers to the nearest 10, 100, 1,000, 10,000 and 100,000.

2. Round 2,749,501 to the nearest 100,000.

3. Explain the first step you would take for: Round 384,650 to the nearest 10,000 and then to the nearest 1,000.

4. Miro says: Miro rounds to the largest place value he can see instead of the place named. What should Miro check?

Teacher answers and checking prompts

1. Which prior skill will help with today's lesson? Round whole numbers to the nearest 10, 100, 1,000, 10,000 and 100,000.
Answer Pupil identifies a relevant fact, representation or method.
2. Round 2,749,501 to the nearest 100,000.
Answer 2,700,000.
3. Explain the first step you would take for: Round 384,650 to the nearest 10,000 and then to the nearest 1,000.
Answer Underline the place named in the question.
4. Miro says: Miro rounds to the largest place value he can see instead of the place named. What should Miro check?
Answer The question controls the accuracy. Mark that place before deciding.
